Fairtrade

A bit more about it..

Fairtrade is an organised social movement whose goal is to help producers in developing countries achieve better trading conditions and promote sustainability. Members of the movement advocate paying higher prices to growers and exporters, as well as aiming to establish higher social and environmental standards. The movement focuses in particular on exports from developing countries to developed countries, most notably coffee, cocoa, sugar, tea, bananas, and chocolate.

The movement seeks to promote greater equity in international trading partnerships through dialogue, transparency and respect. It promotes sustainable development by offering better trading conditions to, and securing the rights of, marginalised producers and workers in developing countries.
