# Gluten Free

A bit more about it..

Since the very beginning, Suma has always aimed to cater for special dietary requirements. Our gluten-free range contains over 2000 different products. From every day essentials to special treats.

A gluten-free diet is essential for people with coeliac disease. Coeliac disease is caused by a reaction of the immune system to gluten—a protein found in wheat, barley and rye. Sales in this area have never been bigger with many non-coeliacs reporting a range of health benefits after adopting a gluten-free diet. Many basic foods are naturally gluten-free. Foods which require substituting with a gluten-free alternative are bread, pasta, cereals, biscuits, cakes, pies and sauces.

It is generally accepted that the term gluten-free refers to a harmless level of gluten, rather than to a food being 100% free of gluten. Food products labelled gluten-free may have been contaminated with gluten somewhere between being harvested and delivered to us.

## Key BFGSOV
